

Viceminister Higuera inaugurates the fourth multisectoral capacity building module for APEC PERU 2024

Press note

14 September 2023

The Vice Minister of Foreign Relations, Ambassador Ignacio Higuera, and the high-ranking official from the United States for APEC, Ambassador Matt Murray, inaugurated the fourth multisectoral capacity building module titled: "Fourth APEC capacity building module: Supporting Peru's 2024 Host Year".

The capacity building was directed towards strengthening the capacities of 50 Peruvian officials in technical skills for the drafting and negotiation of documents related to the main deliverables of APEC PERU 2024. It was supported by experts from Chile, the United States, and New Zealand.

It is important to highlight that this module has been organized by the Ministry of Foreign Affairs with the cooperation of the Department of State of the United States within the framework of the program "US Support for Economic Growth in Asia" (US-SEGA).

In the activity, the Vice Minister Higuera highlighted the positive impact that previous capacity building programs by US-SEGA have had on the development of the priorities and projects that our country is preparing for its APEC PERU 2024 presidency.

Thanks to the cooperation provided by the United States since July 2022, four (04) multisectoral capacity building modules have been carried out to date, aimed at strengthening the competencies of Peruvian officials so that they can assume the functions that they will be exercising during the APEC PERU 2024 presidency.
